*Category:
Presentation*

About:

Prezi is an amazing tool for the ooh and aah factor. It is Powerpoint and so much more. It's simplicity makes it easy to learn, but it truly allows the user to create an amazingly thorough and shockingly fun presentation. The fun part is that you can embed video, pictures and more to make it a full featured powerpoint.

Your Mission:

Instead of building your next big topic or unit in Powerpoint, make it a prezis and get the students excited to learn in a whole new view!

Uses In The Classroom

- Use Prezi instead of PowerPoint as a presentation tool.
- Tell a story about a favorite trip by embedding videos and photos in your Prezi.
- Create a non-linear presentation with a variety of templates.
- Use Prezi for vocabulary development. Type the word, then zoom in on the definition and picture.
- Create an about me prezis using text, video, and pictures of your

Helpful Hints:

Prezi educational version allows students to create prezis and make them private, they just need to sign up. They will need an e-mail address to do this, so it does take some prep time.

If you joined prezis before you realized their was an edu version, please follow the instructions [here](#) to upgrade your account.
